comfort

Hawa Concepta III

Flowing transitions make rooms more flexible than ever before

New

Open living spaces have been an important trend in interior design and living space design for several years. The new Hawa Concepta III supports this new kind of living, and creates transitions from kitchen to living room or from workplace to living area in a more fluid way than ever before.

Doors of any size can be pivoted, slid in sideways and parked in an extremely small space, almost in the blink of an eye. They can then be brought out again with a gentle tap and closed flush with the surface, so that all that remains visible of the kitchen is an aesthetic front.

This works so easily and intuitively that it is even possible to dispense with handles. We weren't just thinking about the users during the development of the Hawa Concepta III: The system impresses with its simplicity, even during installation and adjustment.

This is all based on technology that is just as invisible as a kitchen that is currently not in use.

Open layouts awaken the desire for a smooth transition from the kitchen to the living area.

More aesthetics

Design is also always that which you don't see: With the new Hawa Concepta III, work surfaces and entire kitchens can be reduced to an elegant, flush front with an even gap pattern. If you prefer a puristic appearance, you can even dispense with handles.

More comfort

Making the contents of a cabinet disappear within seconds only requires a minimal amount of effort with the Hawa Concepta III technology. The pioneering, patented system guarantees an even, extremely smooth movement with its sophisticated operating assistance.

More efficiency

The qualities of the Hawa Concepta III are already evident during processing. The high degree of pre-assembly makes installation easier, and the logically positioned, easily accessible adjusting points simplify adjustment, and the entire system therefore supports increased productivity.

Hawa Concepta III dimensions

Made to measure in accordance with your requirements

The Hawa Concepta systems of the newest generation display their full quality in the kitchen. They make floor-to-ceiling designs, highboards or wall units with two, three or four doors possible. This gives you almost unlimited creative freedom.

	Hawa Concepta III 25 Push/Pull	Hawa Concepta III 35 Push/Pull
Door height	1200 to 2200 mm	1900 to 2700 mm
Door width	440 to 750 mm	440 to 750 mm
Door thickness	18 to 26 mm	18 to 26 mm
Door weight	6 to 25 kg	10 to 35 kg
Niche width	55 mm	55 mm
Space requirement niche depth	95 mm	95 mm

Push/Pull

All dimensions relate to both operating options:

Push (handle-less) 

Pull (with handle) 

The advantages of pivot/slide-in doors

The new Hawa Concepta III in brief

Flexibility

Variable door dimensions: half-height to floor-to-ceiling solutions possible, including walk-on solutions

Can be combined with Hawa Folding Concepta III, for three-door solutions without separating wall

Comfort

Ergonomic movement support for even, smooth movement

Opening and closing with very little effort – one hand is enough

Reliability

Tested for 40,000 cycles (highest class) and maintenance-free for the entire service life

(equivalent to approx. 25 years and the average service life of a pivot/slide-in door)

Fulfils the DIN EN 15706 standard

Productivity

Efficient planning with the Hawa Concepta III configuration tool

Easy installation thanks to high degree of pre-assembly

Intuitive adjustment with easily accessible adjustment points

Aesthetics

Allows constructions with and without handle

Uniform, flush front design with even gap pattern

Invisible technology
